

# Save Halesowen's Countryside

- 22,000 houses & large industrial estates are proposed to be built in the Green Belt surrounding the Black Country
- This would have a devastating & disastrous effect on the historic and beautiful Halesowen countryside
- In future years further development would spread right up to slopes of the Clent Hills
- Local people have an opportunity to comment on these proposals which are being sought in a planning document, titled, 'Black Country Core Strategy - Consultation'
- We should not allow this Green Belt development to take place and if you agree that all future development must be contained within the urban area and no Green Belt should be released, then please join our 'Save Halesowen's Countryside' Facebook page from the following link to find how you can help and object:  
<https://www.facebook.com/groups/794907084024824/>
- Alternatively, you can write directly to:  
Black Country Core Strategy, Planning Services, Dudley MBC, The Council House, Priory Road, Dudley, DY1 1HF
